## Wetland Wildlife Canoe Tour - 3 hours

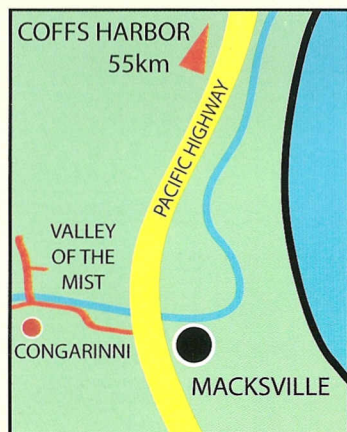

Our guide will take to you into 52 hectares of rare pristine east coast wetlands that are recognized as being habit of international importance. See an amazing diversity of native bird, animal, reptile and marine life.  
To enhance your experience numbers are restricted to just 4 people.

Please note-

Valley of the Mist is a working farm so all tours must be booked 48 hours in advance.  
For your comfort and safety appropriate clothing and footwear should be worn.

Being just a short detour from the Pacific Highway is just one reason that makes Valley of the Mist a very special place.....  
Few locations anywhere can offer the public such easy access to a diverse range of native bird, animal and marine life as can be seen here.  
These rare near-pristine and ecologically healthy wetlands are one of the last places on the East coast of Australia where such a wide range of wildlife can be seen in its natural environment.  
Valley of the Mists' bush tucker orchard is a great example of how farming can be sustained with minimal impact on nature.

Dr Stuart Blanch

Valley of the Mist is located approximately half way between Sydney and Brisbane, 5 km west of Macksville. Turn off the Pacific Highway at the sign for Taylors Arm. At the village of Congarinni turn right, crossing the river and proceed 800m to the Valley of the Mist property which is sign posted on the right hand side.

Discover one of nature's special places with easy access on the NSW mid north coast

# Valley of the Mist

Valley of the Mist is a working bush tucker farm set in 42 hectares of beautiful bush land forest.

An orchard of 10 hectares has been established which is dedicated to growing an amazing variety of native fruits and nuts using low impact sustainable farming methods. Visitors can see how we work with nature to produce the amazing Davidson plum which must be seen to be believed - as the fruit grows in huge bunches from stems which form directly on the tree trunk itself!

As you are guided through the orchard you will learn about bush tucker and taste what is in season - the fruits of the Lillipilli, Macadamia nuts, Lemon and Aniseed Myrtles, Finger Limes, and Warrigal greens. We also produce an exclusive range of jams, chutneys and dressings with authentic bush flavours for you to take home and enjoy or give as gifts.

Take a guided canoe tour and explore 52 hectares of rare pristine east coast wetlands that teem with wildlife. So far 117 species of birds have been sighted at these wetlands including the amazing Jabiru, Black Swans and Ospreys.

A fantastic variety of animals, reptiles and fish have also made these wetlands their home and offer visitors amazingly easy access to observe and take great wildlife photos.

A visit to Valley of the Mist offers a unique blend of the tastes and sights from the Australian bush
